Small Community Great Opportunity

By Lena High School Students

Lena Public School District

At the center of the community is the Lena Public School District. Every year, sports and other school events draw visitors to experience the proud spirit of Lena students, staff, and community members. With small class sizes, students are offered more one-on-one opportunities with teachers than they would receive in a large school district. The Lena Public School District is also technologically advanced, offering nearly one computer to every student.
